

San Francisco International Airport

NOTICE

September 18, 2017

TO: All Limousine Operators

SUBJECT: SFO Web Link Policy Notice

For your limousine business to be listed on the Airport website, it must be in good standing with SFO and the California Public Utilities Commission, and at least **25%** of your company's permitted SFO fleet must be powered by **electricity** (plug-in or hybrid), **natural gas**, or **hydrogen**, or achieve an EPA Smartway Greenhouse Gas Emissions rating of at least 8 ([go here](#)):

Many progressive limousine companies have voluntarily acquired very low emission vehicles in support of California's commitment to reduce greenhouse gases. The Airport is pleased that these companies offer passengers a green alternative. SFO will actively promote these companies by linking their company web address on our www.flysfo.com website.

Effective October 20, 2017, the Airport will remove your company's link from our website if you don't meet the minimum clean fleet vehicle standard.

If your firm wishes to be linked to the Airport's website in the future or if you have any questions regarding this policy, please contact Roger Hooson, Senior Planner, at (650) 821-6511.
