

**Confirmation of Tenant provided
Fuel Fire Safety and Hand-Held Fire Extinguisher Training**

The Airport requires all personnel who handle and/or dispense fuel to complete both Fuel Fire Safety and Hand-Held Fire Extinguisher Training. This training must include all subject matter detailed in FAR 139.321 and FAA Advisory Circular 150/5230-4B. Each fuel agent is required to confirm completion of training before their personnel are permitted to take the Airport fueling test. To ensure compliance with Airport rules and federal regulations, the deactivation date of the SFO issued AOA/SIDA badge with fueling endorsement will be set 23 months from the most recent date of completed Fuel Fire Safety and Hand-Held Fire Extinguisher Training.

By signing this form, the Authorized Signer affirms that the tenant fueling supervisor has provided the employee Fuel Fire Safety and Hands-On Extinguisher Training in accordance with the guidelines established in FAR Part 139.321 and FAA Advisory Circular 150/5230-4B. The tenant fueling supervisor must have completed a supervisory training course approved by the FAA per FAR Part 139.321 within the previous 24 calendar months.
